Instructions:

- Place 3 cups of organic compost, 1 handful of seeds, and a half cup of clay in the bucket
- Mix together with your hands or a spoon
- Add 1 cup of water
- Mix together until well blended (the clay should be soft and the mixture should be relatively sticky)
- Gently press into balls (these quantities should make about 7-10 balls)
- Then repeat until you have used all of the raw materials
- Store them outside and place in the pollinator garden where you would like to see them grow

3 cups of organic compost, ½ cup of clay, handful of seeds

Mix together the organic compost, clay, and seeds

Add 1 cup of water to the mixture

Mix together until well blended and the mixture is sticky

Pick up about a handful of clay

Gently press into balls

Each batch should make about 7 to 10 seed balls
